

TAPE ECHO

REPLICATOR

D'LUXE

- Handcrafted in Denmark
- Multiple Playback-heads for true analog tape echoes
- One Record head and two playback heads. Short Head for slap back delay. Long head for longer modern delays, or combine both heads for a semi Delay-Room experience
- Delay time Short head = 108 – 520mS. Delay time long head = 215 – 1000 mS
- Tap tempo for Long Head and half the time for the short head
- True Bypass switching with a gold plated relay
- New motor suspension with belt drive, for reduced noise operation
- New Tape deck lock-mechanics to protect pinch roller and tape for longer life span
- All analog signal path form input to output
- Power supply with exchangeable blades 90-240 Volt, and an extra tape cartridge included

Input impedance	> 500K ohm
Output impedance (ohm)	< 1K ohm
Power supply (included)	12V DC, center negative
Current draw @12V DC	300mA
Max. input signal	8,7V p-p (12dBu)
External connectors	Input, output, DC inlet
Controls	Delay time, feedback, delay level, saturation, kill dry, short, long, on/off, tap tempo
Pedal size incl. knobs (WxHxD)	8 x 17,4 x 17,5 cm / 3,15 x 6,85 x 6,89 in
Weight excl. packaging	1,50 kg / 52,91 oz
